# Won't Protest Red Sea Tests

WASHINGTON (AP)—President Eisenhower said today it would be very unusual for this country to protest Russia's plans to test rockets in the central Pacific since the United States has made tests there and intends to do so again.

The President told a news conference that such testing appears to conform with international law.

Russia's announced plans to test powerful new rockets in that area have brought criticism from several individuals — former President Harry S. Truman and Sen. Mike Mansfield (D-Mont.), for example.

Eisenhower said the United States always has claimed it is proper to use the high seas for valid scientific experiment, and has been doing so after notifying all concerned and warning away anyone who could be injured.

## Cites Efforts To Segregate Church

BUCK HILLS FALLS, Pa. (AP)—A Methodist woman leader says that some unofficial laymen's groups are trying to keep the church segregated.

Thelma Stevens, of New York, said Tuesday Methodist women are concerned about segregation in education, employment, housing and the church, especially the Methodist Church.

Miss Stevens is executive secretary for Christian Social Relations of the Women's Division. The division consists of both the national organization representing 1,800,000 Methodist women and one of four divisions of the Board of Missions. It is meeting here through this week.

# MENAGERIE TO SET BACKDROP FOR BIG BOUT

LONDON (AP)—Ever wonder how circus animals spend a night off? There are about 100 who plan to lend the Gracieux Lamperti-Percy Allen fight here Jan. 26.

What's the idea of holding a fight for a bunch of blokes who don't know a right cross from a left hook?

The London Olympia currently is housing the Bettam Mills Circus and it will suspend operations for the night so Lamperti and Allen can fight.

### Animals Present

But the circus menagerie will be present. They'll be in their cages in the back of the arena. Won't a sudden jungle roar or a lion's roar tend to worry patrons and the referee?

"We'll have all the animals a good meal before the fight starts," a circus spokesman said. "If they've eaten well they'll be more likely to keep quiet."

How about crowd noises? We don't know how they'll react to the noise of the crowd," the spokesman answered. "Of course, he's used to the clapping of the circus audience. But a sudden roar of a lion when a boxer goes down may be another matter."

## Expect Decision On Sub Rules Today

MIAMI BEACH, Fla. (AP)—Today is the day of decision for the college football Rules Committee and before tonight the public will know under which substitution rule the game will be played next fall.

Unlimited substitution, in effect before 1957, seemed unlikely to return. Some change, however, may be made in the rule in effect this season.

What the compromise would be when the 11 voting members of the committee are polled was secret.

The Irish Free State was set up in 1922.

**Today's Talk**  
**BE NATURAL**  
Francis Bacon once wrote that "some men's behavior is like a verse, wherein every syllable is measured."  
That's about the best description of many men's ways.  
There is only one true law for conduct and that is the law of your best impulse. To do what your heart suggests and your brain decides.  
I love to watch a child because it plays talks and thinks naturally. It is unaffected.  
To watch some women come out of a public dining room or some men at their jobs, you would think some mysterious dispensation had been put abroad in the world to "watch them go by."  
I am reminded from observation that most great men and women are natural and unaffected. That is what made and keeps them great.  
The world is little concerned now you strut or dress so far as style is concerned so long as you act and put to work all that you are.  
People of achievement have little time to note the effect created by their presence here or there. They deal in "futures." They prefer to keep their "objectives" concealed until they have won their points.  
Remember that, as you are, there is not another in all the great world. Your development along natural, unaffected lines is the surest road to your largest stature in the world.

Warners Given Contract For 5 Buildings Here: Award of the contract for the erection of office buildings on the battlefield to A. R. Warner and Son, Waynesboro contractors, was announced today by James R. McConaghie, superintendent of the Gettysburg National Park.  
The Waynesboro contractors submitted the lowest of nine bids for the work, their figure being \$35,876.  
Two entrance stations, which will be combination guides' stations, comfort stations and information bureaus, will be erected, one on the Chambersburg road and the other on the Emmitsburg road. Two comfort stations, one at Devil's Den and the other at Spangler's Springs, and a utility building to enlarge the present utility structure on the Taneytown road also will be erected.  
Harvard Signs "Dick" Harlow: "Dick" Harlow, the famed coach of Western Maryland, who has been signed to coach the Harvard football team next year, is well known in Gettysburg where he had a number of friends.  
Harlow's crack gridiron eleven came to Gettysburg on a number of occasions.  
On one of their visits Harlow was "embarrassed" when one of his most famous teams was tied by the Broom coached Orange and Blue 19-19 in one of the season's smartest and biggest upsets.  
Last Survivor Of Those On Rostrom At Cemetery Dedication, '63, Expires: A little more than 71 years ago President Abraham Lincoln came to Gettysburg to dedicate the Gettysburg National Cemetery. The date was November 19, 1863.  
On the improvised wooden rostrum, erected on the side of where the Soldiers' National monument now stands, among a large group of local, state and national celebrities, stood a little 15-year-old girl with bright blue eyes and long curls hanging down her back. The little girl sang with the selected chorists at the dedicatory exercises.  
On recent years all those who were on that rostrum 71 years ago have passed away. Only one remained. She was the little blue eyed girl, Mrs. M. O. Louisa Vandeventer, Smith, of Hanover, formerly of Gettysburg, who prior to the cemetery dedication found refuge in the basement of her father's home during the hectic three days battle here July 1, 2, 3, 1863.  
As the last survivor of those who participated in the dedication of the cemetery, Mrs. Smith enjoyed nationwide fame. She was feted and honored by four presidents, the national G.A.R. and other individuals and groups.

**ASK CHANGES IN EDUCATION OF U. S. WOMEN**  
BOSTON (AP)—The education of American women must be radically revised to meet the changing patterns of life in this country.  
That is the unanimous opinion of a panel of experts attending the annual convention of the American Assn. of Colleges.  
Women's place is no longer strictly in the home, they said, but in outside jobs as well.  
Opal D. David of the American Council on Education told the convention Tuesday that women have a longer life span, are getting married earlier, having their babies earlier, and many of them will spend 25 years in gainful employment.  
Haven't Kept Pace  
Changes in their education, Mrs. David said, haven't kept pace with the changing times.  
Part of the reason she said is that women's colleges are not getting the support they need from foundations and philanthropic organizations.  
President J. Ralph Murray of Elmira College said entirely new study programs should be drawn for women students. They should include more independent study and less learning by rote, he said, and they should stress cultural and intellectual literacy.

**REPUBLICANS PAY TRIBUTE TO SIMPSON**  
HUNTINGDON, Pa. (AP)—Pennsylvania Republicans, led by State Chairman George I. Bloom, paid final tribute Monday to Rep. Richard M. Simpson, dean of Pennsylvania's GOP congressmen.  
Funeral services for the 59-year-old lawmaker who died last Thursday at Washington after brain surgery attracted scores of top party leaders.  
A large delegation of Simpson's congressional colleagues chartered a special bus to make the trip here from Washington. They were led by Reps. Charles Halleck, House Republican leader, and Joseph Martin, former House Speaker.  
Rites were planned in the First Presbyterian Church followed by burial in Riverview Cemetery.

**DEVELOP AIR TRAFFIC PLAN**  
WASHINGTON (AP)—The Federal Aviation Agency has announced plans for some 750 projects, costing \$118,200,000, to improve the nation's air navigation and air traffic control systems.  
The work is planned for the current fiscal year on the basis of funds available. It also may be some changes in sites and projects later due to realignment of airways or to changing local conditions.  
Major emphasis will be on the application of various types of radar for air traffic control duties. The agency will equip 24 of its long range radars with ground radar beacon systems at an average cost of \$106,400. One system will be installed at Lewistown, Pa.  
New instrument landing systems costing \$195,000 each will be installed at 18 locations including Williamsport, Pa., site of an Allegheny Airlines crash in which 25 persons were killed.

**FORESEES RAIL LABOR TROUBLE**  
CLEVELAND (AP)—The nation's railroads are in for labor trouble if they expect to settle current negotiations with a "less attractive package" for rail workers than the steelworkers just received, a Brotherhood of Railroad Trainmen executive asserted Monday night.  
William J. Weil, general secretary-treasurer of the BRT, issued the statement, which was taken by followers at the union's convention here to mark an opening of a campaign to displace W. P. Kennedy as the union's president.  
The steelworkers got about 40 cents an hour over three years in the settlement earlier this month. So far in contract talks the railroads have asked for a reduction of 15 cents in hourly wages and work-rule changes to eliminate what they call "featherbedding" practices.

**MAN IS FREED IN SHOOTING OF BOY**  
DOYLESTOWN, Pa. (AP)—Asa Beckner, 58, Somerset R. 3, was freed by a Bucks County grand jury Monday in the accidental shooting of a 12-year-old Northampton Township boy last Nov. 2.  
Five hours prior to the grand jury hearing, a man who was to have been a witness in the case suffered a heart attack and died. Police said the man, Paul Barnes, 49, Willow Grove, had been in Beckner's hunting party the day of the shooting.  
The boy, killed, Andrew W. Kulas, had walked only a 100 feet from his home enroute to school when he was hit.  
Beckner, who was charged with involuntary manslaughter, said he had been in a hunting party shooting small game near the place where the boy was killed.

**BLOOM SEES NIXON BOOM**  
HARRISBURG (AP)—George I. Bloom, Republican state chairman, says he anticipates a groundswell of support for Vice President Nixon throughout the nation, now that Nixon's candidacy for the Republican presidential nomination is just about official.  
"As far as I can learn in talking to people, his candidacy will be very well received, and I think from here on in that you will find activities building up throughout the country in support of Nixon," Bloom said.  
Bloom made his comments after Nixon gave permission for his name to be entered in the Oregon, Ohio and New Hampshire primaries Saturday.  
Bloom said he was not surprised at the Nixon move.  
Asked if her personally was going to support Nixon, Bloom said: "I'm going to remain uncommitted but I think sentiment in Pennsylvania is for Nixon."

**SEEK PILOT PLANT ON NEW COAL USES**  
HARRISBURG (AP)—Four municipalities have asked the State Mines Department for a pilot plant to prepare coal binder material used for paving highways.  
The department disclosed to the Associated Press today the Coal Research Board would probably make a decision in the next week or two. The pilot plant is estimated to cost about \$25,000.  
Applications already have been submitted by Indiana, Windber, Greensburg and Barnesboro. More may come later.  
Mines Secretary Joseph T. Kennedy and his chief engineer, Ralph Lambert, recently returned from a trip to Kentucky where an experiment is under way on the use of coal for surfacing highways.

**SEVERAL COUNTRIES SHOULD INCREASE A BIT, BUT PROBABLY NOT ON A LARGE SCALE FOR A GOOD WHILE.**  
Agreement on trade doesn't necessarily mean agreement on other big issues such as disarmament or the Soviets' demand that the Western Allies get their troops out of Berlin. It has been past Soviet practice to haggle on each issue individually, as if none was related to any other.  
During the war this country provided the Soviet Union with \$10,800,000,000 worth of military and civilian equipment. After the war the United States wrote off the military equipment and concentrated on getting paid for the civilian goods still in Soviet hands.  
The value of the civilian goods was pegged at \$2,600,000,000 by this country. After the two previous talks the United States had scaled down its claim to 800 million dollars. The Soviets offered 300 million.  
There are various legal restrictions on trade with the U.S.S.R. Some go back to before World War I, because the Communists have never paid on loans made to the Russian government before the Soviets took over.  
The result is trade between the two countries is in tiny terms, compared with their economies. Last year the United States exported 3 1/2 million dollars worth of goods to the Soviet Union and imported about 17 1/2 million dollars worth.  
When Khrushchev met President Eisenhower last fall at Camp David he was reportedly very upset over American restrictions on trading with the U.S.S.R. He was said to feel the Soviet Union was being treated like an outcast.  
Undersecretary of State Douglas Dillon said last September Khrushchev was told at Camp David that if the Soviet Union is reasonable about paying off on its lend-lease debt it may pave the way to easing American restrictions.  
He said the Eisenhower administration may ask Congress—provided there is a settlement—to remove some legal prohibitions against dealing with the Soviet Union and to extend more favored tariff treatment.  
But one of the main roadblocks to any big increase in trade with the U.S.S.R. soon—even if there's a settlement—is that goods that American purchasers want from abroad in substantial quantities, and which the Soviets have available, are already being supplied by free world countries.

**PASTORS DISAGREE ON RELIGIOUS ISSUE**  
PHILADELPHIA (AP)—The United Presbyterian Church in the U.S.A. reported today that in a poll 875 of its ministers disagreed that "the religious affiliation of a presidential candidate is irrelevant." Only 37 ministers agreed.  
The church said ministers were asked to indicate their opinions about a Roman Catholic candidate in multiple choice statements in the Nov. 16 issue of Monday Morning, a magazine for Presbyterian ministers. Responses totaled 1,047 out of a possible 10,947.  
Sen. John F. Kennedy (D-Mass.), who is a Catholic, has announced his candidacy for the Democratic presidential nomination.

**SAY STRENGTH OF USW FORCED STRIKE'S END**  
By JOHN KOENIG JR.  
Associated Press Special Service  
WASHINGTON (AP)—Two Pennsylvania House Democrats said Tuesday the strength of the Steelworkers Union — not the intervention of Vice President Richard M. Nixon — forced a settlement in the long steel strike.  
"It was the strength of the United Steelworkers and their leadership that did everything," Rep. Elmer Holland (D-Pa.) said in an interview.  
Rep. John H. Dent (D-Pa.) said Nixon's part in settling the long strike was political.  
To Hold Line Now  
"I said a long time ago the strike would be settled when and if the situation was ready politically," Dent said, adding: "To me, there is no question but that big steel will engineer a price increase but they'll hold the line until after the election."  
Holland said surveys showed the steel companies that their last offer to the union would not be accepted by the members.  
"They knew it would be rejected by a large vote," said Holland. "Therefore they were willing to sacrifice strictly to save face."  
More Beneficial  
Holland said he believed the final settlement agreed to by the big companies was even more beneficial for the union than the previous settlement made with the Kaiser Steel Co., a similar proposal was rejected earlier by big steel.  
"They found they couldn't break the union even with a half-Hartley injunction," said Holland. "They thought they could brainwash the members but when they found they couldn't they had to do the best thing to get off the hook."  
Dent, said he feared Nixon's part in the strike settlement had set a precedent for other "political settlements" in labor disputes.

HUNTINGDON, Pa. (AP)—Pennsylvania Republicans, led by State Chairman George I. Bloom, paid final tribute Monday to Rep. Richard M. Simpson, dean of Pennsylvania's GOP congressmen.  
Funeral services for the 59-year-old lawmaker who died last Thursday at Washington after brain surgery attracted scores of top party leaders.  
A large delegation of Simpson's congressional colleagues chartered a special bus to make the trip here from Washington. They were led by Reps. Charles Halleck, House Republican leader, and Joseph Martin, former House Speaker.  
Rites were planned in the First Presbyterian Church followed by burial in Riverview Cemetery.

**DEVELOP AIR TRAFFIC PLAN**  
WASHINGTON (AP)—The Federal Aviation Agency has announced plans for some 750 projects, costing \$118,200,000, to improve the nation's air navigation and air traffic control systems.  
The work is planned for the current fiscal year on the basis of funds available. It also may be some changes in sites and projects later due to realignment of airways or to changing local conditions.  
Major emphasis will be on the application of various types of radar for air traffic control duties. The agency will equip 24 of its long range radars with ground radar beacon systems at an average cost of \$106,400. One system will be installed at Lewistown, Pa.  
New instrument landing systems costing \$195,000 each will be installed at 18 locations including Williamsport, Pa., site of an Allegheny Airlines crash in which 25 persons were killed.

**FORESEES RAIL LABOR TROUBLE**  
CLEVELAND (AP)—The nation's railroads are in for labor trouble if they expect to settle current negotiations with a "less attractive package" for rail workers than the steelworkers just received, a Brotherhood of Railroad Trainmen executive asserted Monday night.  
William J. Weil, general secretary-treasurer of the BRT, issued the statement, which was taken by followers at the union's convention here to mark an opening of a campaign to displace W. P. Kennedy as the union's president.  
The steelworkers got about 40 cents an hour over three years in the settlement earlier this month. So far in contract talks the railroads have asked for a reduction of 15 cents in hourly wages and work-rule changes to eliminate what they call "featherbedding" practices.

**MAN IS FREED IN SHOOTING OF BOY**  
DOYLESTOWN, Pa. (AP)—Asa Beckner, 58, Somerset R. 3, was freed by a Bucks County grand jury Monday in the accidental shooting of a 12-year-old Northampton Township boy last Nov. 2.  
Five hours prior to the grand jury hearing, a man who was to have been a witness in the case suffered a heart attack and died. Police said the man, Paul Barnes, 49, Willow Grove, had been in Beckner's hunting party the day of the shooting.  
The boy, killed, Andrew W. Kulas, had walked only a 100 feet from his home enroute to school when he was hit.  
Beckner, who was charged with involuntary manslaughter, said he had been in a hunting party shooting small game near the place where the boy was killed.

**BLOOM SEES NIXON BOOM**  
HARRISBURG (AP)—George I. Bloom, Republican state chairman, says he anticipates a groundswell of support for Vice President Nixon throughout the nation, now that Nixon's candidacy for the Republican presidential nomination is just about official.  
"As far as I can learn in talking to people, his candidacy will be very well received, and I think from here on in that you will find activities building up throughout the country in support of Nixon," Bloom said.  
Bloom made his comments after Nixon gave permission for his name to be entered in the Oregon, Ohio and New Hampshire primaries Saturday.  
Bloom said he was not surprised at the Nixon move.  
Asked if her personally was going to support Nixon, Bloom said: "I'm going to remain uncommitted but I think sentiment in Pennsylvania is for Nixon."

**SEEK PILOT PLANT ON NEW COAL USES**  
HARRISBURG (AP)—Four municipalities have asked the State Mines Department for a pilot plant to prepare coal binder material used for paving highways.  
The department disclosed to the Associated Press today the Coal Research Board would probably make a decision in the next week or two. The pilot plant is estimated to cost about \$25,000.  
Applications already have been submitted by Indiana, Windber, Greensburg and Barnesboro. More may come later.  
Mines Secretary Joseph T. Kennedy and his chief engineer, Ralph Lambert, recently returned from a trip to Kentucky where an experiment is under way on the use of coal for surfacing highways.

**SEVERAL COUNTRIES SHOULD INCREASE A BIT, BUT PROBABLY NOT ON A LARGE SCALE FOR A GOOD WHILE.**  
Agreement on trade doesn't necessarily mean agreement on other big issues such as disarmament or the Soviets' demand that the Western Allies get their troops out of Berlin. It has been past Soviet practice to haggle on each issue individually, as if none was related to any other.  
During the war this country provided the Soviet Union with \$10,800,000,000 worth of military and civilian equipment. After the war the United States wrote off the military equipment and concentrated on getting paid for the civilian goods still in Soviet hands.  
The value of the civilian goods was pegged at \$2,600,000,000 by this country. After the two previous talks the United States had scaled down its claim to 800 million dollars. The Soviets offered 300 million.  
There are various legal restrictions on trade with the U.S.S.R. Some go back to before World War I, because the Communists have never paid on loans made to the Russian government before the Soviets took over.  
The result is trade between the two countries is in tiny terms, compared with their economies. Last year the United States exported 3 1/2 million dollars worth of goods to the Soviet Union and imported about 17 1/2 million dollars worth.  
When Khrushchev met President Eisenhower last fall at Camp David he was reportedly very upset over American restrictions on trading with the U.S.S.R. He was said to feel the Soviet Union was being treated like an outcast.  
Undersecretary of State Douglas Dillon said last September Khrushchev was told at Camp David that if the Soviet Union is reasonable about paying off on its lend-lease debt it may pave the way to easing American restrictions.  
He said the Eisenhower administration may ask Congress—provided there is a settlement—to remove some legal prohibitions against dealing with the Soviet Union and to extend more favored tariff treatment.  
But one of the main roadblocks to any big increase in trade with the U.S.S.R. soon—even if there's a settlement—is that goods that American purchasers want from abroad in substantial quantities, and which the Soviets have available, are already being supplied by free world countries.

**PASTORS DISAGREE ON RELIGIOUS ISSUE**  
PHILADELPHIA (AP)—The United Presbyterian Church in the U.S.A. reported today that in a poll 875 of its ministers disagreed that "the religious affiliation of a presidential candidate is irrelevant." Only 37 ministers agreed.  
The church said ministers were asked to indicate their opinions about a Roman Catholic candidate in multiple choice statements in the Nov. 16 issue of Monday Morning, a magazine for Presbyterian ministers. Responses totaled 1,047 out of a possible 10,947.  
Sen. John F. Kennedy (D-Mass.), who is a Catholic, has announced his candidacy for the Democratic presidential nomination.

**U.S., Russia Square Off On Lend-Lease Settlement**  
By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (AP)—For the third time in 13 years the United States and the Soviet Union are trying to settle the Soviets' lend-lease debt for American help during the war. But don't read too much into an agreement, if there is one.  
The two sides talked about it in 1947-48 and again in 1951-52, without success. They started talking again Monday, but this time under different circumstances.  
Premier Nikita S. Khrushchev, when he was here last September, made a pitch for trade as part of better relations in a number of fields between the U.S.S.R. and the United States. He was told a lend-lease settlement might remove a major obstacle, and the new lend-lease talks are a result of his urging.  
Settlement Possible  
So there may be a settlement. If there is, trade between the two

**CURBS TOUR ON RACIAL ISSUE**  
SAN FRANCISCO (AP)—Dave Brubeck is passing up an estimated \$40,000 in bookings because he refuses to drop a Negro musician from his jazz group for a Southern tour, the San Francisco Chronicle said Tuesday.  
The jazz pianist had planned about 25 performances, but cut the bookings to 10 as Southern colleges and universities learned his quartet is not all-white. Eugene Wright, a Negro, plays bass.  
Brubeck said he felt the cancellations do not reflect Southern student sentiment, but that of state-aid-conscious officials.  
"The students know my group. I'd be selling those kids short to go down South with an all-white group," he asserted.  
Brubeck said the University of Jacksonville, Fla.; Vanderbilt University, Nashville, Tenn.; and the University of the South, Seawane, Tenn., accepted the integrated quartet.  
Among the institutions as canceled were University of Mississippi; Millsaps College, Jackson, Miss.; Memphis State College; Southwestern Institute, Lafayette, La.; Southeastern Louisiana College, Hammond, La.; and Georgia Institute of Technology at Atlanta.

## Bullets Riddle Dickinson 86-70; Play At Delaware In MAC Game On Thursday

The foul line played the most important role in Gettysburg's fifth win of the season as they romped to an 86-70 victory over Dickinson Tuesday evening on the Carlisle floor before 800 fans.

Both teams netted 31 of 69 shots from the field but the Bullets capitalized on 19 Dickinson personal fouls by converting 24 of 31 charity tosses. Even though the visitors violated the rules 17 times the Red Devils made good on only eight of 20 attempts.

Coach Bob Hulton's Bullets now own a two-game winning streak for a 5-6 record on the season while Dickinson is 3-6. The Bullets will try to even their record and at the same time strengthen their position in the Middle Atlantic Conference when they travel to Newark, Del., Thursday to tangle with the University of Delaware.

During the first five minutes of play Gettysburg jumped to a 13-5 lead on the shooting of George Burnett, Ron Warner and Bill Fitzkee. Four minutes later the Red Devils cut the visitors' lead on goals by Gene Becker and Ray Cromer. At the 10:28 mark Gettysburg was in front 15-12. Warner, Bob Parker and Bruce Simpson came back to rally 10 counters while Mike Hermann jog Elmsky and Cromer dunked eight Bullets ahead 25-20. Gettysburg for the home team with 4:36 minutes left in the first half and the began to edge away from their opponents and led 43-32 at half.

The second half turned into a nip and tuck affair for 10 minutes with both teams matching each other shot for shot. At the 3:50 mark the Bullets led 71-64 but then Dickinson lost their steam. Burnett landed a lay-up. Ron Warner sank a pair of fouls. Burnett followed with two charity tosses, Ron Warner went in for a lay up and Bill Hemming hit on a corner jump to make the score 81-64. Elmsky added a jump for the home club but Fitzkee came back with a foul Parker added two more free tosses and Ron Warner matched Parker. Dickinson closed out the scoring on a jump by Elmsky and Hermann's lay-up.

Dickinson's scoring leader, senior Joe Elmsky, took top honors with 24 points while Mike Hermann netted 16 and Gene Becker registered to Becker and Gettysburg's Ron Warner were team mates two years ago on the York High basketball team and both were responsible for guarding the other during Tuesday's encounter. Ray Cromer, Dickinson junior, is a former Hanover High star in the South Penn conference.

Ron Warner continued his climb towards the top scoring honors in the country as he landed six of ten field shots and 11 of 12 fouls for 23 points. He now has a 529 shooting average and is hitting 22 points per game. Bob Parker, the nation's top foul shooter, came through with another perfect night connecting on five for five fouls. He has run his sting to 24 in a row and is 37 for 38 Parker tied Warner with 23 points while George Burnett recorded 16.

The Gettysburg freshmen team put on a late rally but were too late as they dropped a 55-51 decision to the Dickinson frosh in the preliminary contest. Dickinson led by 20 points midway through the second half and Coach Howard Shoemaker's captains cut the margin into five points but the buzzer sounded before they could complete their task. The Little Bullets are now winless in their five engagements.

Ted Koerner was the games high point maker with 18. Bob Bole netted 16 for the home team with Jack Rogers landing 13.

The Little Bullets will meet York Junior College here Saturday evening at 6:45 p.m. in the preliminary to the varsity Scranton game.

## BENDERSVILLE FIREMEN GET 27 CALLS IN '59

Bendersville firemen responded to 27 calls during 1959. Duane Bretzman, captain of the fire police for the Bendersville company, announced today. Ten of the calls were to assist other fire companies or the Department of Forests and Waters. Twenty calls were for grass or forest fires, three for house fires, two for chimney fires, one was to a burning woodshed and one a call to a drowning.

Bretzman reported the pumps were used at only four of the forest fires. Indian pumps and forest equipment and the firemen's cars and trucks were used in answering the other forest calls.

On one fire 1,200 feet of hose was used. Booster lines were used at 14 fires and in connection with the others the fires were under control or too far gone to save when firemen arrived.

173 Calls In 10 Years

The firemen answered five calls in January, one in February, eight in March, nine in April, one in August, one in September, and two in December.

Fourteen of the calls were between 12 noon and 6 p.m., five between 6 a.m. and noon, five between 6 p.m. and midnight and three between midnight and 6 a.m.

There were three calls in Bendersville, eight in Menallen Twp.,

## City Judge Rules On Police Critics

OKLAHOMA CITY (AP)—City Judge James Demopolos ruled it is okay to say what you think about a police officer—just so he doesn't hear it.

Officer A. F. Blackshire told the court Tuesday he flagged down a motorist for excessive speed. Blackshire said the driver rolled down his window and moved his lips in a "profane manner."

Judge Demopolos ruled moving of ones lips does not constitute disorderly conduct and dismissed the charge. But the motorist paid a \$15 fine for speeding.

## SAYS COLLEGE GRADS FAILING PUBLIC, SELVES

By G. K. HODENFIELD  
AP Education Writer

BOSTON (AP)—American college graduates are flunking the test of public service, and their intellectual failure is even more shocking, according to Dr. Perry Epler Gresham, president of Bethany College.

Although many have done well financially, he said, they have not provided public leadership in the crucial areas of politics, economics, and public philosophy.

Dr. Gresham, here for the 36th annual meeting of the Assn. of American Colleges, spoke at an alumni reunion Monday night.

Many Attend Meeting

More than 500 college and university presidents and 200 deans are here for the AAC meeting. The 800 members of the association represent 95 per cent of all accredited liberal arts colleges, universities, and some, including Harvard and Yale, have dropped out of the program in protest.

The association is expected to ask Congress to continue the long-term low-interest loan program for college housing. There also may be a request for a similar government program to finance in 1865.

## Cool Store Owner Puts Bandits On Ice

OKLAHOMA CITY (AP)—Bandits finally got their just dues at the Honest John Market Monday. Two gunmen sacked \$4,300 from the market's cash register and ordered owner Oran Clayton and several customers into a frozen food locker.

Clayton played it cool. Inside the locker he pressed a button. A buzzer sounded in a nearby police station.

The bandits never had a chance. They walked out of the market and met police officers with pistols drawn.

Clayton installed the locker room burglar alarm after sweating out two earlier holdups.

## EISENHOWERS GOING TO CAL. FOR FEW DAYS

WASHINGTON (AP)—President Eisenhower is going back to the Palm Springs, Calif., desert area late this month for a few days of golf in the warm sun.

The White House said Tuesday night the President will go Jan. 28, the morning after he addresses a Republican "Salute to Ike" campaign dinner in Los Angeles as previously planned.

The President plans to stay in the Palm Springs area from Thursday until Sunday or Monday. His doctors recommended last November that he get away to a warm, dry climate whenever possible due to his chronic bronchitis.

It will be his third visit to the region as president. He was there about a week in February 1954, and again for eight days last fall.

This time he again will be the guest of his old friend George E. Allen, Washington businessman. As before, the temporary presidential office will be Allen's home at La Quinta, a few miles from Palm Springs.

# Cool Store Owner Puts Bandits On Ice

OKLAHOMA CITY (AP) — Bandits finally got their just dues at the Honest John Market Monday. Two gunmen sacked \$1,500 from the market's cash register and ordered owner Oran Clayton and several customers into a frozen food locker.

Clayton played it cool. Inside the locker he pressed a button. A buzzer sounded in a nearby police station.

The bandits never had a chance. They walked out of the market, and met police officers with pistols drawn.

Clayton installed the locker in the room burglar alarm after sweating out two earlier holdups.

The association may also take action on the loyalty oath and disbarment of the government.

The association is expected to ask Congress to continue the long-term low-interest loan program for college housing. There also may be a request for a similar loan and holdup.

# EISENHOWERS GOING TO CAL. FOR FEW DAYS

WASHINGTON (AP) — President Eisenhower is going back to the Palm Springs, Calif., desert area late this month for a few days of golf in the warm sun.

The White House said Tuesday night the President will go Jan. 28, the morning after he addresses a Republican "Salute to Ike" campaign dinner in Los Angeles as previously planned.

The President plans to stay in the Palm Springs area from Thursday until Sunday or Monday. His doctors recommended last November that he get away to a warm, dry climate whenever possible due to his chronic bronchitis.

It will be his third visit to the region as president. He was there about a week in February 1954, and again for eight days last fall.

This time he again will be the guest of his old friend George E. Allen, Washington businessman. As before, the temporary presidential office will be Allen's home at La Quinta, a few miles from Palm Springs.

ASSN. was formed here at the State Farm Show.

The new organization aims to advance news coverage in the agricultural field and allied industries.

**U. S. Protest To Cuba Is Rejected**

By **RICHARD VALERIANI**  
HAVANA (AP)—Fidel Castro's regime has rejected a U.S. protest against tactics used in seizing American property in Cuba and said it would speed up operation of its land reform program against both Cubans and foreigners.

Property owners were told to take their complaints to the Cuban courts.

U.S. Ambassador Philip Bonsal delivered a State Department note Monday complaining that lands and buildings of U.S. citizens in Cuba had been seized without court orders and frequently without written authorization.

The State Department said in many cases no inventories were made, no receipts given for the seized property and no indication given that payment would be made.

**5 CANDIDATES ARE LISTED BY PA. DEMOCRATS**

**HARRISBURG (AP)—**Five candidates are reported under consideration by the state Democratic organization for endorsement as nominees for another general and state election.

Rep. Stephen Mettman, House Democratic floor leader, has been reported as a possibility for another term.

A source close to the administration who declined to be identified, said Tuesday the 42-year-old member of the legislature was the favorite of the state party's executive committee.

Others mentioned as possible candidates for either another term or as a possible challenger are: James A. Knox, Attorney General, who is also the party's state executive committee chairman; and William T. Haggerty, Central County prothonotary, Louis J. Amaratunga, Philadelphia clerk of courts, and Victor Moore, Philadelphia councilman.

**GOP Choices Made**  
Candidates from both parties for the two local posts, which pay \$22,500 a year, will be chosen in the April 26 primary. Organization endorsement is an important factor in winning nomination.

Republicans already have endorsed Attorney General Charles C. Smith and State Treasurer Robert F. Kent for a sixth of offices. They are prohibited by law from succeeding themselves.

William J. Green, Philadelphia Democratic chairman, is expected to have a big voice in party councils determining the candidates. Present indications point to his supporting either Amaratunga or Moore, but not both.

**Smuggler Trapped By Parrot's Talk**

**LOS ANGELES (AP)—**"Buenos dias, senor," the parrot said. That did it. Robert Harold Gebhart, charged with smuggling 65 pounds of marijuana, shrugged and changed his plea to "no contest" from innocent.

After all, he had reasoned, how would anyone know the birds found in his place came from south of the border?

Investigators couldn't get a word of English out of the birds — only Spanish.

**PRESIDENT HITS "VIRUS OF BIGOTRY"**

**NEW YORK (AP)—**President Eisenhower, in his recent anti-Semite address, said "The virus of bigotry must be destroyed." In a message read Tuesday night at an emergency meeting of the American Jewish Congress, Eisenhower said that when bigotry "becomes rampant it can lead to the destruction of freedom and decency everywhere."

The message was addressed to the National Conference of Christians and Jews in reply to a telegram last Thursday from representatives of the Protestant, Catholic and Jewish faiths. They voiced concern to the President over the threat of religious bigotry in politics and the anti-Semitic outbreaks.

Gov. Nelson A. Rockefeller, who led the American Jewish Congress, said: "The recent outbreak of anti-Semitism is shocking. Every thinking person is indignant at these shameful acts and those responsible for these depredations in various parts of the world."

At the Jewish Congress emergency meeting, Protestant and Catholic leaders deplored the anti-Semitism. A message from Cardinal Cushing of Boston said: "I know I speak for millions of Catholics when I offer my prayerful sympathy to our Jewish friends and neighbors."

An official of the American Jewish Congress said the meeting was the first time that leaders of the major religious faiths in the Western Hemisphere discussed from the same platform the wave of synagogal defacements.
